

# Kinosota/Leifur

Manitoba is home to some of the most outstanding sites in the world for concentrations of birds. The importance of these sites to the maintenance of the world's bird populations is recognized internationally through their designation as Important Bird Areas (IBAs).

We need your help finding some key species of birds. If you see the bird on this card please contact us at: [iba@naturemanitoba.ca](mailto:iba@naturemanitoba.ca)

The Red-headed Woodpecker nests in dead trees, notably aspens, in heavily grazed woodlots with little understorey or shrub cover.
