

# Saskatchewan River Delta

Manitoba is home to some of the most outstanding sites in the world for concentrations of birds. The importance of these sites to the maintenance of the world's bird populations is recognized internationally through their designation as Important Bird Areas (IBAs).

We need your help finding some key species of birds. If you see any of the birds on this card please contact us at: [iba@naturemanitoba.ca](mailto:iba@naturemanitoba.ca)

This area consists of flat, low-lying and very extensive wetlands, including huge stretches of marshes, tamarack bogs and meadows. The Carrot River Valley is especially important for large concentrations of migrating waterfowl in spring.

## Have you seen these birds?

**Greater White-fronted Goose**

Groups larger than 500

**Snow Goose**

Groups larger than 1,000

Canada Goose

Groups larger than 1,000

Tundra Swan

Groups larger than 1,000

Lesser Scaup

Groups larger than 1,000

Horned Grebe

Groups larger than 30

Red-necked Grebe

Anything suggesting a colony, e.g. >10

Sandhill Crane

Groups larger than 500
