

# Grant's Lake WMA

Manitoba is home to some of the most outstanding sites in the world for concentrations of birds. The importance of these sites to the maintenance of the world's bird populations is recognized internationally through their designation as Important Bird Areas (IBAs).

We need your help finding some key species of birds. If you see any of the birds on this card please contact us at: [iba@naturemanitoba.ca](mailto:iba@naturemanitoba.ca)

Now a small, cattail dominated marsh, Grant's Lake used to be a much larger waterbody. This IBA is surrounded by intensively cultivated farmland. Several young poplar and willow stands dot the area.

## Have you seen these birds?

**Snow Goose**

Groups larger than 1,000

**Canada Goose**

Groups larger than 1,000

Mallard

Groups larger than 1,000

Canvasback

Groups larger than 500

Lesser Scaup

Groups larger than 1,000

Franklin's Gull

Groups larger than 1,000

Rusty Blackbird

Groups larger than 30
